non-stick firearm finish

20th

Lauer's Anniversary 2000 - 2020

Can you believe it? 20 years have gone by in a flash! DuraCoat® was released back in 2000 and here we are, 20 years later with an unbeatable lineup of firearm finishing products. We have worked tirelessly to continue to develop new products and advancements every year.

The niche market we created and the industry changes that we started are our history. Before DuraCoat®, coating your own firearm was a thing for serious gun enthusiasts and gunsmiths. Now, anybody can do it! Nobody used stencils to create camo patterns or designs on their firearm before the invent of our patented CamoPaks™ and Peel 'N Spray Templates™. A gun being a canvas to showcase artistic abilities was unheard of. Now, all of these things are commonplace thanks to DuraCoat®. Every gun flyer and manufacturer website is riddled with colorful firearms the likes of which didn't exist before DuraCoat® gave people the idea of a gun in anything other than black. When we look back at all the changes to the firearms industry that we have been a part of, it is mind blowing.

Want to refinish your grandpa's shotgun without the high cost of traditional bluing, we've got DuraBlue®. Want to match your handguard to your stock, no problem with DuraCoat®. Want to make your AK look like a million bucks, DuraChrome™ Gold is here for you. Anything you can dream of, we have a solution for and the advancements will never cease.

This year, we are releasing a new version of DuraCoat® for the most extreme situations. DuraCoat® Bad Ass is the best and baddest DuraCoat® yet! Built in self-lubricating, self-etching, and extra corrosion inhibitors make this coating easy to apply yet unmatched in its durability.

We can't wait to see what another 20 years brings and we know you will be along for the ride!

Steven M. Lauer, Proprietor

DuraPearl™ Unicorn

page 21
 Make any DuraCoat color metallic with DuraPearl™ Unicorn! Unicorn enhances the base color by reflecting it back like a prism. Looks even better over already metallic colors such as Stainless Steel or Gold. Creates a subtle sparkle indoors, take it outside for an explosion of color! Pictures don't do it justice, you have to see this in person to believe it!

Traditional Finish Replicators

DuraDize™ Spray-On Anodizing Replicator

EVER WANTED TO RECREATE THE UNIQUE LOOK OF ANODIZING? Now you can with DuraDize™! DuraDize™ replicates the richness of colorful anodizing. Can be applied over all types of metal, plastic, and wood. Requires a base coat of DuraCoat® Stainless Steel. For best results, apply a topcoat of DuraCoat® Satin Clear over Satin DuraDize™.

DuraDize™ can be applied on virtually every part of your firearm

Stocks provided by American Built Arms Company

Traditional Finish Replicators

WWII Green

DuraPark™

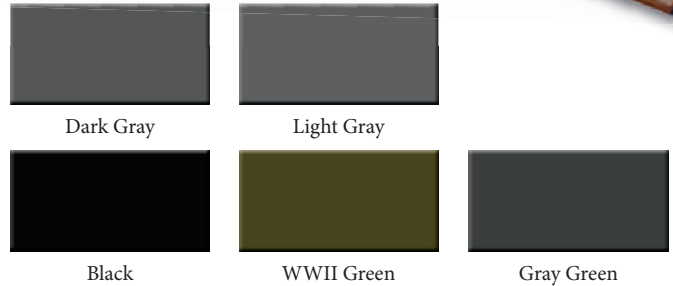

Spray-On Parkerizing Replicator

RECREATE THE LOOK OF PARKERIZING, ALSO KNOWN AS PHOSPHATE FINISH, USING THIS SIMPLE SPRAY-ON COATING. No need for a heated tank of acid, just spray on using an airbrush, spray gun, or the convenient aerosol can. Can be applied to all types of metal. No need for oil as this finish protects against rust and corrosion, but oil will soak in to create a traditional look. Available in five traditional colors.

DuraCoat® Firearm Finishes

DuraCoat®, the industry's leading firearm finish, was developed as a spray-on protective coating for all types of firearms. Originally available in only a handful of colors, the DuraCoat® line has expanded to over 300 standard colors and several lines of specialty colors.

DuraCoat® Original

DuraCoat® is available in an ever-expanding line of colors, sizes, CamoPaks™, and finishing kits for the beginner or professional. DuraCoat® means you'll never worry about rust or corrosion again!

- ▶ Unmatched versatility, durability, and user friendly characteristics.
- ▶ Applicable to all types of metals, plastic, and wood including optics and moving parts.
- ▶ No preheating or baking and has excellent abrasion and mar resistance as well as resistance to solvents and cleaners.

DuraCoat® SL

DuraCoat® SL (Self-Lubricating) has added lubricity for the ultimate self-lubricating/non-stick firearm finish.

- ▶ **Perfect lubricity** for the moving parts of a firearm, plus the corrosion resistant characteristics of DuraCoat® Original, and offering the highest degree of scratch resistance.
- ▶ **Contains FluorAx**, our proprietary blend of lubricating chemicals which inhibits substances containing water or oil from adhering to the surface of DuraCoat® SL.
- ▶ **DuraCoat® SL** may have a slightly higher sheen than DuraCoat® Original. If this is undesirable for your application, use DuraCoat® Flattening Agent to alter the sheen. DuraCoat® Flattening Agent can be used up to 10%.

DuraCoat® Bad Ass

The Best and Baddest DuraCoat® Yet! All the features of Original DuraCoat® but on steroids!

- ▶ **Built in Self Lubricating** for reduced friction and added lubricity. Perfect for use on moving parts, internals, and holstered firearms.
- ▶ **Self-Etching** for increased adhesion. Actually eats into the metal so it's not coming off!
- ▶ **Extra Anti-Corrosion** inhibitors for even more rust resistance.

Color Deck

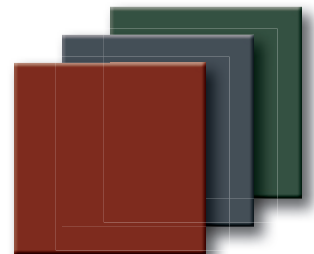

ACTUAL SPRAYED OUT SAMPLES FOR THE MOST ACCURATE DEPICTION OF THE COLORS!

Mike's Mystery 2020

Mike's Mystery is the culmination of a year's worth of complete randomness. The mystery pot was filled with remnants of custom color matches, mistakes from color creation, and discontinued colors throughout the year. It was a complete mystery as to what color we were going to see when we stirred it up the first time. Get it now before it's gone because when it's gone it won't be back!

New
New Colors from 2019

DuraCoat® Standard Colors

- ▶ Ideal for use on all firearm parts, including ferrous metals, alloys, synthetics and wood
- ▶ Unlimited color range
- ▶ Resistant to lubricants, cutting oils, and bore solvents
- ▶ Excellent physical and chemical performance
- ▶ Excellent corrosion and chemical resistance
- ▶ Excellent impact, mar, and abrasion resistance
- ▶ Excellent hardness and adhesion

DuraCoat® can be applied with any quality airbrush, HVLP gun, Preval Aerosol sprayer or Aervoe Spra-Tool. All colors are matte finish unless otherwise indicated. Custom colors and sheens available.

DURAMETL™ HAS BEEN REVAMPED AND IS NOW MORE METALLIC THAN EVER!

Actual pulverized metal ground into the coating makes this the most metallic coating we've ever created. Achieve an amazing appearance with the same durability and user-friendly application you come to expect from all DuraCoat® products. Yes, we had fun with the names but these new colors are no joke!

DuraCoat® Special Purpose Coatings

DuraCoat® Clear

An extremely versatile finish which can be applied over DuraCoat® colors, bluing, stainless - almost any surface of a firearm that needs protection. Protects against rusting and pitting when applied over bluing and prevents the accumulation of oxidization, dirt, and grime on stainless firearms. Will also even out slight sheen differences when used over multiple color patterns, such as camouflage.

Available in Original and SL, in Matte, Satin and Gloss.

DuraClear™ Sealant for Hydrographics

ADD DURABILITY TO YOUR WATER TRANSFER PRINTING/HYDROGRAPHICS! DuraClear™ penetrates the pores of the film, creating a better bond between the Hydrographic and the firearm, and creates a much harder outer surface, protecting the film from scratches and wear. Easily applied with airbrush or automotive spray gun. Available in Matte finish.

DuraCoat® Special Effect Coatings

DuraPearl™

DuraPearl™ Coating is a topcoat designed for use over any DuraCoat® color. The top coat adds sparkle and sheen to create a very attractive finish that is durable and corrosion free. Available in six colors: Pewter, Red, Purple, Gold, White, and Unicorn. The final color will vary depending on the base color used. Examples shown are only a sample of what this amazing product can do.

- 2 oz Container #DP2 \$16.95
- 4 oz Container #DP4 \$24.95
- 8 oz Container #DP8 \$36.95

Samples above are DuraPearl™ sprayed over DuraCoat® colors.

DuraPearl™ Unicorn New

Make any DuraCoat color metallic with DuraPearl™ Unicorn! Simply apply the color of your choice, then top coat with DuraPearl Unicorn for a holographic metallic effect. Unicorn enhances the base color by reflecting it back like a prism. Looks even better over already metallic colors such as Stainless Steel or Gold. Creates a subtle sparkle indoors, take it outside for an explosion of color! Pictures don't do it justice, you have to see this in person to believe it!

DuraCoat® Special Effect Coatings

ChameleonCoat™

ChameleonCoat™ is a true chameleon coating that produces brilliant, eye-catching, color changing sparkle and shine! Add this to your rifle or handgun and definitely get noticed at the range. Available in Green/Blue/Purple and Gold/Purple. Apply over a base coat of Matte Black DuraCoat®.

DuraCoat® Special Effect Coatings

DuraChrome™

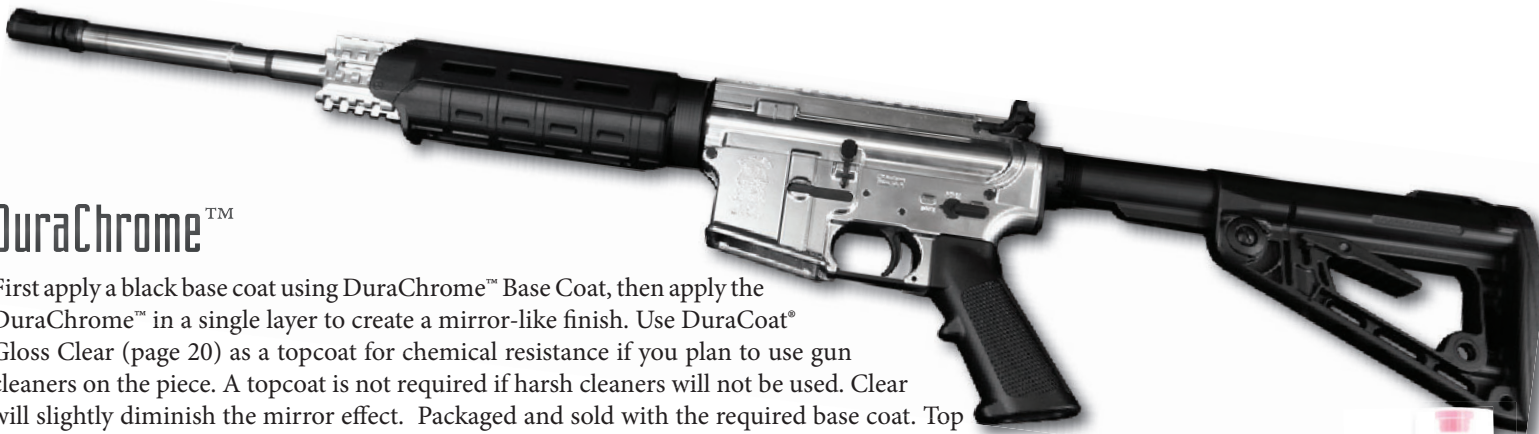

DuraChrome™ Gold

You asked for it and here it is! DuraChrome™ is now available in Gold! Create the gold-plated look you always wanted with this easy to use four-step process. First apply a black base coat using DuraChrome™ Base Coat. Next, apply DuraChrome™ in a single layer to create a mirror-like finish. Then apply the DuraChrome™ Gold coat followed by DuraCoat® Clear as a topcoat. Sold as kit with all four components.

- 2 OZ - 2 oz DuraChrome™, 4 oz Base Coat, 4 oz DuraChrome™ Gold, 4 oz DuraCoat® Clear, enough for one handgun or small parts..... #SOC2G **\$119.90**
- 4 OZ - 4 oz DuraChrome™, 8 oz Base Coat, 8 oz DuraChrome™ Gold, 8 oz DuraCoat® Clear, enough for 2-4 firearms #SOC4G **\$199.90**
- 8 OZ - 8 oz DuraChrome™, 16 oz Base Coat, 16 oz DuraChrome™ Gold, 16 oz DuraCoat® Clear, enough for 4-8 firearms #SOC8G **\$299.90**

DuraChrome™

First apply a black base coat using DuraChrome™ Base Coat, then apply the DuraChrome™ in a single layer to create a mirror-like finish. Use DuraCoat® Gloss Clear (page 20) as a topcoat for chemical resistance if you plan to use gun cleaners on the piece. A topcoat is not required if harsh cleaners will not be used. Clear will slightly diminish the mirror effect. Packaged and sold with the required base coat. Top coat is sold separately.

- 2 OZ - 2 oz DuraChrome™ and 4 oz Base Coat, enough for one handgun or small parts #SOC2 **\$59.95**

2 oz Container	#DCQ2	\$13.50
4 oz Container	#DCQ4	\$24.25

Phosphate Coatings and Kits

Zinc Phosphate Parkerizing Solution

Heavy crystalline “non-glare” gray coating enables the surface to absorb oils or spray-on/bake-on finishes. Well suited undercoat for DuraCoat® Firearm Finishes or LCW Post Treatment Solution. Perfect for tactical and hunting guns or military restorations. Just degrease, blast, and immerse parts in the solution. Then oil or coat with your favorite finish. A heated stainless steel container is required for use. **Meets Military Spec: DOD-P-16232.**

Solution concentrate:

- 1 Pint.....#ZPS16 \$13.95
- 1 Gallon#ZPS128 \$62.00

Zinc Phosphate Parkerizing Kit

Includes one pint of Zinc Phosphate Parkerizing Solution and one 16 oz Aerosol LCW Post Treatment Solution. Mix Zinc with four parts water in a heated stainless steel container (not included), then spray on the Post Treatment Solution. No messy oil soak or pump sprayer needed.

- 1 Kit.....#ZPSK \$32.95

Manganese Phosphate Parkerizing Solution

Medium-heavy crystalline coating, ideal for firearms that must perform under adverse weather conditions. The porous surface created by this process lends itself to absorption of oil or spray-on/bake-on finishes. Non-reflective surface perfect for tactical and hunting situations. Just degrease, blast, and immerse parts in the solution. Then oil or coat with a finish such as DuraCoat®. A heated stainless steel container is required for use. **Meets Military Spec: A-A-59267.**

Solution concentrate:

- 1 Pint.....#MPS16 \$12.95
- 1 Gallon#MPS128 \$58.00

Manganese Phosphate Parkerizing Kit

Includes one pint of Manganese Phosphate Parkerizing Solution and one 16 oz Aerosol LCW Post Treatment Solution. Mix Manganese with four parts water in a heated stainless steel container (not included), then spray on the Post Treatment Solution. No messy oil soak or pump sprayer needed.

- 1 Kit.....#MPSK \$31.95

Black Dip Pre-Treatment Solution

New and Improved! Now with a deeper, smoother finish! Black Dip Pre-Treatment Solution for manganese or zinc parkerizing creates a deep black finish. No heating required, just immerse parts for 15 seconds and immediately parkerize. Ready to use, no mixing or measuring required. Can be used in any container other than stainless steel.

Solution concentrate:

- 1 Quart.....#BD32 \$20.00
- 1 Gallon#BD128 \$59.95

Black Dip Parkerizing Kit

Want black parkerizing but not sure what you need? This kit includes one quart of Black Dip, one pint of either Manganese or Zinc Phosphate Parkerizing Solution, and one 16 oz Aerosol LCW Post Treatment Solution. Parkerizing solution should be mixed with four parts water. Black Dip should be used without diluting. Heated stainless steel tank required for parkerizing, Black Dip can be used with any container other than stainless steel.

- 1 Kit, Manganese or Zinc..... #BDK \$52.95

LCW Post Treatment Solution

Water displacing rust preventative designed to protect ferrous metals treated with zinc or manganese phosphates. Has water displacing properties so it can be applied wet, eliminating drying operations. May be applied by brush or, for maximum protection, dipping. Also a very effective “after-bluing” oil and rust preventative.

- 16 oz Aerosol.....#PTS16AE \$21.95
- 1 Pint.....#PTS16 \$13.95
- 1 Gallon#PTS128 \$34.95
- 5 Gallons#PTS5 \$159.95

Protective Equipment

LCW Shop Apron

Heavy duty, provides protection from parkerizing solution and general gun smithing operations.

- 1 Apron#SAHDR \$16.25

LCW Parkerizing Gloves

Durable high-quality gloves, ideal for parkerizing.

- 1 Pair.....#PGCLL \$26.90

Cleaners and Pre-Treatments

NoSand™ Prep Solution

The easiest to use firearm finishes on the planet just got easier! No more sanding! No more blasting! Just degrease with TruStrip™ then apply NoSand™ with a scrubbing pad for improved adhesion without the extra work. Works on all types of metal and plastic. Apply with your own spray equipment or use our convenient spray pump.

4 oz, with pump #NS4P \$9.95
8 oz, with pump #NS8P \$14.95

4 oz, without pump #NS4 \$7.95
8 oz, without pump #NS8 \$12.95
16 oz, without pump #NS16 \$19.95
32 oz, without pump #NS32 \$29.95
128 oz, without pump #NS128 \$79.95

1st. Degrease with TruStrip™

2nd. Apply NoSand™ Prep Solution

3rd. Use included scrubbing pad to work NoSand™ Prep Solution into all areas

Cleaners and Pre-Treatments

DuraPhos™ Kit

Do you have a bare steel action that you want to DuraCoat®? Use the DuraPhos™ Kit for the best possible results. Apply with an airbrush or spray gun. The kit includes 4 oz DuraCoat® with Hardener, 2 oz Reducer, 4 oz DuraPhos™

Pre-Treatment Solution, 4 oz DuraPhos™ Cleaner, and 6 oz Aerosol TruStrip™ Cleaner/Degreaser.

DuraPhos™ Kit #DPK \$49.95

DuraFil™ Kit

Need to fix up that old, pitted barreled action? This kit is for you. The DuraFil™ Kit includes 4 oz DuraCoat® with Hardener, 2 oz DuraFil™ with Hardener, 2 oz Reducer, and 6 oz Aerosol TruStrip™ Cleaner/Degreaser.

All you do is degrease, apply DuraFil™ using an airbrush or spray gun, let dry and sand smooth. Top coat with DuraCoat® and you have a beautifully restored piece.

DuraFil™ Kit #DFK \$39.95

DuraPhos™ Pre-Treatment Solution

SIMPLY SPRAY APPLY AT ROOM TEMPERATURE, NO HEATED SOLUTION TANKS OR BLASTING! Now with a detergent to help clean the surface prior to DuraCoating! DuraPhos™ provides all the pre-treatment benefits of a standard phosphate without the mess or equipment or fuel cost. DuraPhos™ is a liquid phosphate solution that is corrosion resistant and designed to provide superior adhesion for coatings applied to steel in as little as five to seven minutes. To avoid corrosion of application equipment, clean-up with DuraPhos™ Cleaner. DuraPhos™ is to be used only as a DuraCoat® pre-treatment and not as a final finish.

8 oz Container #DPHOS8 \$16.95
1 Gallon.....#DPHOSG \$125.00

DuraPhos™ Cleaner

To avoid corrosion of application equipment after using DuraPhos™ Pre-Treatment Solution, clean-up with DuraPhos™ Cleaner.

SafeClean™ Cleaner/Degreaser

SafeClean™ Cleaner/Degreaser is a safe, easy to use heavy-duty cleaner for gun parts. This low pH, biodegradable, natural solvent is ready to tackle oils, grease, and crusted dirt. Simply wipe off the parts with a sponge or rag, or soak barrels, receivers, and gun parts in SafeClean™. SafeClean™ exhibits excellent cleaning in heated LCW Solution Tank (120 °F).

1 Pint.....#SC16 \$8.95
1 Gallon.....#SC128 \$21.90
5 Gallons.....#SC5 \$102.50

LCW Rust & Bluing Remover

LCW Rust & Bluing Remover removes rust, heat scale, oxides, and bluing from metal surfaces without attacking the steel (provided immersion is no more than a couple hours). This concentrated solution is completely soluble in water and rinses easily in hot or cold water. Prepare by mixing 1 quart water to 1 quart remover. Can be used at room temperature or heated to as high as 120 °F to speed the process.

Working dimensions 30" W x 18.5" H, two exhaust fans #HSSB3716 \$559.00

D500 Air Compressor

Economical air compressor suitable for all airbrushes spraying DuraCoat® products. This 1/10 HP compressor is capable of delivering up to 20-30 PSI with most airbrush models. This oil-less diaphragm unit is for the operation of one airbrush at a time. Operates on regular house current.

Paasche D500 Air Compressor #D500 \$149.00

With Regulator and Switch #D500SR \$185.00

HVLP Converter

High volume, low pressure (HVLP) system runs on shop air, designed for the serious firearm finishing professional. Perfect for large runs in a short time with minimal waste. With a fully adjustable spray pattern size from up to 12" down to airbrush size.

HVLP Converter #HVLPC \$995.00

Spray Gun Only #HVL3 \$455.00

LCW Speed Blaster

Gravity feed media/sand blaster with shatterproof 24 oz reservoir, adjustable material flow valve for consistent blasting. Operating pressure is 60-125 PSI. 125-200 PSI working pressure with max air consumption of 12 cfm at 125 PSI.

LCW Speed Blaster #HMB \$87.00

Replacement Nozzle #HMBTIP \$15.00

120 Grit Aluminum Oxide Blast Media, 5 lbs #AO120 \$10.00

Replacement Cup Assembly

8 oz cup, cover, 5/8" tube assembly, siphoner, locknut, gasket .. #CA8 \$60.50

HVLP Check Valves

Package of two #HCV \$11.00

Half Mask Respirator

Air purifying respirator for paint and vapors. Pre-assembled with replaceable filters.

Half Mask Respirator #99 \$48.50

Replacement Prefilters, package of 4 #998 \$11.95

Pattern Packages and Templates

CamoPak™

Each of our 70 patterns are available in a CamoPak™, which includes:

- ▶ Between 8 and 14 ounces of DuraCoat® Original or DuraCoat® SL and 1 ounce of Hardener, enough to create the camouflage pattern on 1 - 2 firearms

CamoPak™ Plus

Each of our 70 patterns are available in a CamoPak™ Plus, which includes:

- ▶ Between 8 and 14 ounces of DuraCoat® Original or DuraCoat® SL and 1 ounce of Hardener, enough to create the camouflage pattern on 1 - 2 firearms
- ▶ Appropriate Peel 'N Spray™ Template or Fabric Template

EZ Camo Kit

Each of our 70 patterns are available in an EZ Camo Kit, which includes:

- ▶ CamoPak™ with between 8 and 14 ounces of DuraCoat® Original or DuraCoat® SL, enough for 1 - 2 firearms
- ▶ 1 ounce of Hardener
- ▶ 4 ounce DuraCoat® Reducer
- ▶ 16 ounce Aerosol TruStrip
- ▶ Peel 'N Spray™ Template or Fabric Template
- ▶ Paasche Airbrush with air hose and couplings
- ▶ Two 12 ounce Paasche airbrush propellants with valve
- ▶ Color bottle with cap

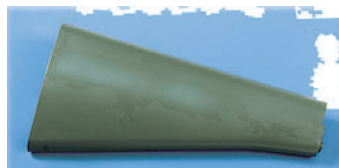

Peel 'N Spray™ Templates

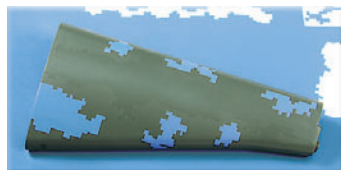

Each of our easy-to-use adhesive backed Peel 'N Spray™ Templates is pre-cut to produce the CamoPak™ camouflage pattern of your choice. Create a professional camouflage finish with DuraCoat® Peel 'N Spray™ Templates by following these eight simple steps! Peel 'N Spray™ Templates are available as part of a CamoPak™ Plus or EZ Camo Kit, but may also be purchased individually in full rifle length or the smaller handgun size.

Step 1
Randomly select one or more Peel 'N Spray™ templates and place on the base coated item.

Step 2
Spray second color. Completely coat the item and templates. Do not remove templates.

Step 3
Randomly apply more templates.

Step 4
Spray third color, completely coat the item and template.

Step 5
Remove all templates.

Step 6
Apply female templates for accent color.

Step 7
Apply accent color to female templates.

Step 8
Remove female templates and apply DuraCoat® Clear.

Additional Products

Template Adhesive Remover Want to remove that annoying template adhesive residue? It's as easy as using the new Template Adhesive Remover. Just put it on a rag and wipe it down.
4 oz Container #TAR4 \$4.95

Camo Template Maker Make your own camouflage templates with this convenient kit. Includes 6 feet of adhesive backed template material and cutter #CTM \$39.95

Stencil Knife Hardened steel razor edge blade..... #M155 \$5.45

DuraCoat® EasyWay Camo Kits

APPLYING A DURACOAT® CAMO PATTERN HAS NEVER BEEN EASIER!

DuraCoat® EasyWay Camo Kits include four 2 oz DuraCoat® colors, LCW TruStrip Cleaner/Degreaser, DuraCoat® Reducer, a Preval Aerosol Sprayer, and Cut-Rite Camo Stencils. No need for any additional spray equipment. Everything you need to create a durable, protective, and effective camo pattern is included in this kit. To create a more even sheen, apply a top coat of DuraCoat® Clear (sold separately, see page 20).

Gun Tattoos

Add a bit of personality to your gun or shooting accessories with our Gun Tats! Each of these tattoo stencils can be reused multiple times. Stencils are approximately 1 inch. Choose from the DuraCoat® Logo, Bullseye, Crosshairs, Biohazard, Skull, Spider, and Student of the Gun Logo.

Each tattoo..... #MGT \$5.00

Prym1 Camo Patterns

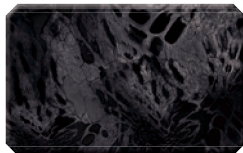

Prym1
Shore Line

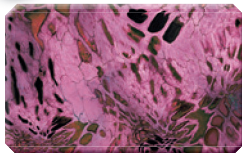

When hunting, we do not always stay stationary in front of a tree. More often than not, we are stalking. This presents a problem if your camouflage is designed to only blend into a wooded terrain. Prym1 Camo has been professionally designed with the idea of using organic shapes rather than trees and leaves. Now you can recreate the Prym1 patterns using Officially Licensed DuraCoat® CamoPaks™ and Peel 'N Spray™ Templates.

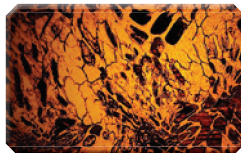

Be the Predator.
