Built-in Self-Lubricating Self-Etching Extra Anti-Corrosion

Lauer's Letter

2021 went by in a flash but not without its challenges. While we dealt with record sales again, the disruptions to the supply chain have been felt worldwide. Shortages on everything from bottles, to labels, to raw materials has been quite the change from the "everything and anything, anytime" motto our world has been running on up until this point. We have been lucky to avoid a worst case scenario but have come very close to running out of key components. While we hope to never run into a situation where we cannot provide our products, we hope that if it does happen that you, our customers, will understand and know that we are doing everything in our power to keep the coatings you have come to rely on readily available. You have also undoubtedly noticed that everything is getting more expensive due to these supply chain shortages and unfortunately our products are no exception. We are trying our hardest to keep prices down but we don't have control over the cost of materials and packaging so you will notice an increase in our prices this year. Please visit our website for the most current prices.

On a good note, DuraCoat® Bad Ass has been so successful that we decided to introduce DuraBlue® Spray-On Bluing in the Bad Ass formula as well. Now you can have the best of both worlds, unbeatable durability and the beautiful look of traditional bluing. Look for that in all the original DuraBlue® colors in both Matte and Polished sheens.

Here's to another year!

Steven M. Lauer, Proprietor
"All products perform as advertised."

New Products

DuraBlue®

The Revolutionary DuraBlue® Spray-On Bluing is now available in the Bad Ass formula for the most durable combination of looks and protection. Includes built in self-lubricating, self-etching, and extra anti-corrosion properties. Available in Polished Blue, Polished Blue/Black, Polished Black, Matte Blue, Matte Blue/Black, and Matte Black.

DuraPark™

Spray-On Parkerizing Replicator

RECREATE THE LOOK OF PARKERIZING, ALSO KNOWN AS PHOSPHATE FINISH, USING THIS SIMPLE SPRAY-ON COATING. No need for a heated tank of acid, just spray on using an airbrush, spray gun, or the convenient aerosol can. Can be applied to all types of metal. No need for oil as this finish protects against rust and corrosion, but oil will soak in to create a traditional look. Available in five traditional colors.

- 12 oz Aerosol Can, enough for one barreled receiver #DPKA \$59.95
- 2 oz Container, enough for one barrel or small parts #DPK2 \$23.95

DuraCoat® Standard Colors

DuraCoat®, the industry's leading firearm finish, was developed as a spray-on protective coating for all types of firearms. Originally available in only a handful of colors, the DuraCoat® line has expanded to over 300 standard colors and several lines of specialty colors.

DuraCoat® Original

DuraCoat® is available in an ever-expanding line of colors, sizes, CamoPaks™, and finishing kits for the beginner or professional. DuraCoat® means you'll never worry about rust or corrosion again!

- ▶ Unmatched versatility, durability, and user friendly characteristics.
- ▶ Applicable to all types of metals, plastic, and wood including optics and moving parts.
- ▶ No preheating or baking and has excellent abrasion and mar resistance as well as resistance to solvents and cleaners.

DuraCoat® SL

DuraCoat® SL (Self-Lubricating) has added lubricity for the ultimate self-lubricating/non-stick firearm finish.

- ▶ **Perfect lubricity** for the moving parts of a firearm, plus the corrosion resistant characteristics of DuraCoat® Original, and offering the highest degree of scratch resistance.
- ▶ **Contains FluorAx**, our proprietary blend of lubricating chemicals which inhibits substances containing water or oil from adhering to the surface of DuraCoat® SL.
- ▶ **DuraCoat® SL** may have a slightly higher sheen than DuraCoat® Original. If this is undesirable for your application, use DuraCoat® Flattening Agent to alter the sheen. DuraCoat® Flattening Agent can be used up to 10%.

DuraCoat® Bad Ass

The Best and Baddest DuraCoat® Yet! All the features of Original DuraCoat® but on steroids!

- ▶ **Built in Self Lubricating** for reduced friction and added lubricity. Perfect for use on moving parts, internals, and holstered firearms.
- ▶ **Self-Etching** for increased adhesion. Actually eats into the metal so it's not coming off!
- ▶ **Extra Anti-Corrosion** inhibitors for even more rust resistance.

Color Deck

ACTUAL SPRAYED OUT SAMPLES FOR THE MOST ACCURATE DEPICTION OF THE COLORS!
The DuraCoat® Color Deck includes the 125 most popular DuraCoat® colors and collections. Included are 65 popular Standard Colors plus the Bloomberg Collection, Tactical Ultra-Flat Colors, Metal Collection, Girl's Guide to Guns Colors, Electric Colors, DuraLaser™ Fluorescent Colors and ZombieCoat™ Colors.

DuraCoat® Color Deck.....#DCCD1 \$29.95

Individual Color Chips.....#DCICS \$1.00

The Best and Baddest DuraCoat® Yet! All the features of Original DuraCoat® but on steroids! Built in self-lubricating, self-etching, and extra anti-corrosion properties!

DuraCoat® Standard Colors

- ▶ Ideal for use on all firearm parts, including ferrous metals, alloys, synthetics and wood
- ▶ Unlimited color range
- ▶ Resistant to lubricants, cutting oils, and bore solvents
- ▶ Excellent physical and chemical performance
- ▶ Excellent corrosion and chemical resistance
- ▶ Excellent impact, mar, and abrasion resistance
- ▶ Excellent hardness and adhesion

DuraCoat® can be applied with any quality airbrush, HVLP gun, Preval Aerosol sprayer or Aervoe Spra-Tool. All colors are matte finish unless otherwise indicated. Custom colors and sheens available.

DuraCoat® Special Purpose Coatings

DuraCoat® Clear

An extremely versatile finish which can be applied over DuraCoat® colors, bluing, stainless - almost any surface of a firearm that needs protection. Protects against rusting and pitting when applied over bluing and prevents the accumulation of oxidization, dirt, and grime on stainless firearms. Will also even out slight sheen differences when used over multiple color patterns, such as camouflage.

Available in Original and SL, in Matte, Satin and Gloss.

	Original	DuraCoat® SL

DuraDrab™ Aerosol Kit.....#LODAK \$67.15

DuraCoat® Special Effect Coatings

DuraPearl™

DuraPearl™ Coating is a topcoat designed for use over any DuraCoat® color. The top coat adds sparkle and sheen to create a very attractive finish that is durable and corrosion free. Available in six colors: Pewter, Red, Purple, Gold, White, and Unicorn. The final color will vary depending on the base color used. Examples shown are only a sample of what this amazing product can do.

- 2 oz Container #DP2 \$20.35
- 4 oz Container #DP4 \$29.95
- 8 oz Container #DP8 \$44.35

Samples above are DuraPearl™ sprayed over DuraCoat® colors.

DuraPearl™ Unicorn

Make any DuraCoat color metallic with DuraPearl™ Unicorn! Simply apply the color of your choice, then top coat with DuraPearl Unicorn for a holographic metallic effect. Unicorn enhances the base color by reflecting it back like a prism. Looks even better over already metallic colors such as Stainless Steel or Gold. Creates a subtle sparkle indoors, take it outside for an explosion of color! Pictures don't do it justice, you have to see this in person to believe it!

DuraCoat® Special Effect Coatings

ChameleonCoat™

ChameleonCoat™ is a true chameleon coating that produces brilliant, eye-catching, color changing sparkle and shine! Add this to your rifle or handgun and definitely get noticed at the range. Available in Green/Blue/Purple and Gold/Purple. Apply over a base coat of Matte Black DuraCoat®.

- 2 oz Container#CC2 \$26.35
- 4 oz Container#CC4 \$37.80
- 8 oz Container#CC8 \$65.95
- 16 oz Container#CC16 \$107.95

DuraGlo™ Night Sight Paint

DuraGlo™ Night Sight Paint is a durable phosphorescent coating that glows brighter and longer than any night sight available. *Comes in 1/2 oz containers.*

Daytime Clear/Nighttime Green (#DG12) requires White DuraGlo™ Base Coat (#DGW12).

DuraVelvet™ Top Coat

DuraCoat® Special Effect Coatings

DuraChrome™

DuraChrome™ Gold

You asked for it and here it is! DuraChrome™ is now available in Gold! Create the gold-plated look you always wanted with this easy to use four-step process. First apply a black base coat using DuraChrome™ Base Coat. Next, apply DuraChrome™ in a single layer to create a mirror-like finish. Then apply the DuraChrome™ Gold coat followed by DuraCoat® Clear as a topcoat. Sold as kit with all four components.

- 2 OZ - 2 oz DuraChrome™, 4 oz Base Coat, 4 oz DuraChrome™ Gold, 4 oz DuraCoat® Clear, enough for one handgun or small parts..... #SOC2G **\$143.90**
- 4 OZ - 4 oz DuraChrome™, 8 oz Base Coat, 8 oz DuraChrome™ Gold, 8 oz DuraCoat® Clear, enough for 2-4 firearms #SOC4G **\$239.90**
- 8 OZ - 8 oz DuraChrome™, 16 oz Base Coat, 16 oz DuraChrome™ Gold, 16 oz DuraCoat® Clear, enough for 4-8 firearms #SOC8G **\$359.90**
- 16 OZ - 16 oz DuraChrome™, 32 oz Base Coat, 32 oz DuraChrome™ Gold, 32 oz DuraCoat® Clear, enough for 8-16 firearms #SOC16G **\$659.95**

DuraChrome™

First apply a black base coat using DuraChrome™ Base Coat, then apply the DuraChrome™ in a single layer to create a mirror-like finish. Use DuraCoat® Gloss Clear (page 18) as a topcoat for chemical resistance if you plan to use gun cleaners on the piece. A topcoat is not required if harsh cleaners will not be used. Clear will slightly diminish the mirror effect. Packaged and sold with the required base coat. Top coat is sold separately.

- 2 OZ - 2 oz DuraChrome™ and 4 oz Base Coat, enough for one handgun or small parts #SOC2 **\$71.95**
- 4 OZ - 4 oz DuraChrome™ and 8 oz Base Coat, enough for 2-4 firearms #SOC4 **\$119.95**

- Large Aerosol - 16 oz DuraChrome™ and (2) 12 oz Aerosol Base Coat, enough for 2-4 firearms..... #SOCLA **\$179.95**

DuraCoat® Additives

DuraCoat® Hardener

Hardener is included with DuraCoat®, but is also sold separately. 10-1 to 14-1 is the recommended mixing ratio range of DuraCoat® to Hardener.

1 oz Container	#DCH1	\$8.35
2 oz Container	#DCH2	\$13.80
4 oz Container	#DCH4	\$19.15
8 oz Container	#DCH8	\$36.60
16 oz Container	#DCH16	\$71.95
32 oz Container	#DCH32	\$142.75

DuraCoat® UV Hardener

Optimize DuraCoat® for outdoor applications with UV Hardener. Keeps the color from fading longer than regular Hardener in exterior conditions.

1 oz Container	#DCUV1	\$10.20
2 oz Container	#DCUV2	\$16.20
4 oz Container	#DCUV4	\$29.10
8 oz Container	#DCUV8	\$55.50
16 oz Container	#DCUV16	\$100.75
32 oz Container	#DCUV32	\$163.80

DuraCoat® Reducer

May be used to reduce DuraCoat® by up to 20% for proper atomization which allows for a smooth, even flow.

2 oz Container	#DCR2	\$7.80
4 oz Container	#DCR4	\$11.40
8 oz Container	#DCR8	\$17.95
16 oz Container	#DCR16	\$32.35
32 oz Container	#DCR32	\$58.75
128 oz Container	#DCR128	\$161.95

DuraCoat® Retarder

Specially formulated to slow down the evaporation rate of DuraCoat® and help eliminate dry spray and blushing. Can be used at up to 20% of volume.

2 oz Container	#DCRT2	\$9.55
4 oz Container	#DCRT4	\$19.15
8 oz Container	#DCRT8	\$36.60

DuraCoat® Flattening Agent

DuraCoat® Flattening Agent can be used to give DuraCoat® less sheen or gloss, and can be used at up to 10% of volume.

1/2 oz Container	#DCFA12	\$4.75
1 oz Container	#DCFA1	\$7.50
2 oz Container	#DCFA2	\$12.60
4 oz Container	#DCFA4	\$22.75
8 oz Container	#DCFA8	\$35.95

DuraFlex™ Flexible Additive

DuraFlex™ Flexible Additive increases the flexing properties of DuraCoat®, and can be used at up to 10% of volume.

2 oz Container	#DCF2	\$9.55
4 oz Container	#DCF4	\$19.15
8 oz Container	#DCF8	\$36.60

SoftSand Texturizing Additive

Add texture to your grips, handguards, stocks or anything else you want to have a better grip on. Specially formulated rubber particles create textured grip but are not hard on skin.

Can be added to any DuraCoat® color, DuraCoat® Clear, DuraMetl™, DuraLaser™, DuraBrite™, DuraPearl™, DuraVelvet™, DuraBake™, and DuraHeat™.

1/12 oz Container, Enough for 2 oz of DuraCoat®	#SS2	\$3.90

1/3 oz Container, Enough for 8 oz of DuraCoat®	#SS8	\$11.40
Bulk, Enough for 1 gallon of DuraCoat®	#SS128	\$42.00

DuraCoat® Quicken™

Accelerates the "initial cure" and "final cure" of DuraCoat®, DuraMetl™, DuraLaser™, DuraBrite™, DuraPearl™, and DuraVelvet™. Accelerates cure to most any time frame to allow for specific production and shipping requirements. Maximum mix ratio is 1 part Quicken™ to 8 parts catalyzed coating.

1/2 oz Container	#DCQ12	\$6.30
1 oz Container	#DCQ1	\$10.20
2 oz Container	#DCQ2	\$16.20
4 oz Container	#DCQ4	\$29.10

Phosphate Coatings and Kits

Zinc Phosphate Parkerizing Solution

Heavy crystalline “non-glare” gray coating enables the surface to absorb oils or spray-on/bake-on finishes. Well suited undercoat for DuraCoat® Firearm Finishes or LCW Post Treatment Solution. Perfect for tactical and hunting guns or military restorations. Just degrease, blast, and immerse parts in the solution. Then oil or coat with your favorite finish. A heated stainless steel container is required for use. **Meets Military Spec: DOD-P-16232.**

Solution concentrate:

- 1 Pint.....#ZPS16 \$33.55
- 1 Gallon.....#ZPS128 \$134.40

Manganese Phosphate Parkerizing Solution

Medium-heavy crystalline coating, ideal for firearms that must perform under adverse weather conditions. The porous surface created by this process lends itself to absorption of oil or spray-on/bake-on finishes. Non-reflective surface perfect for tactical and hunting situations. Just degrease, blast, and immerse parts in the solution. Then oil or coat with a finish such as DuraCoat®. A heated stainless steel container is required for use. **Meets Military Spec: A-A-59267.**

Solution concentrate:

- 1 Pint.....#MPS16 \$31.15
- 1 Gallon.....#MPS128 \$129.60

Black Dip Pre-Treatment Solution

New and Improved! Now with a deeper, smoother finish! Black Dip Pre-Treatment Solution for manganese or zinc parkerizing creates a deep black finish. No heating required, just immerse parts for 15 seconds and immediately parkerize. Ready to use, no mixing or measuring required. Can be used in any container other than stainless steel.

Solution concentrate:

- 1 Quart.....#BD32 \$48.00
- 1 Gallon.....#BD128 \$143.95

LCW Post Treatment Solution

Water displacing rust preventative designed to protect ferrous metals treated with zinc or manganese phosphates. Has water displacing properties so it can be applied wet, eliminating drying operations. May be applied by brush or, for maximum protection, dipping. Also a very effective “after-bluing” oil and rust preventative.

- 16 oz Aerosol.....#PTS16AE \$38.35
- 1 Pint.....#PTS16 \$32.35
- 1 Gallon.....#PTS128 \$82.75
- 5 Gallons.....#PTS5 \$383.95

Zinc Phosphate Parkerizing Kit

Includes one pint of Zinc Phosphate Parkerizing Solution and one 16 oz Aerosol LCW Post Treatment Solution. Mix Zinc with four parts water in a heated stainless steel container (not included), then spray on the Post Treatment Solution. No messy oil soak or pump sprayer needed.

- 1 Kit.....#ZPSK \$77.95

Manganese Phosphate Parkerizing Kit

Includes one pint of Manganese Phosphate Parkerizing Solution and one 16 oz Aerosol LCW Post Treatment Solution. Mix Manganese with four parts water in a heated stainless steel container (not included), then spray on the Post Treatment Solution. No messy oil soak or pump sprayer needed.

- 1 Kit.....#MPSK \$75.55

Black Dip Parkerizing Kit

Want black parkerizing but not sure what you need? This kit includes one quart of Black Dip, one pint of either Manganese or Zinc Phosphate Parkerizing Solution, and one 16 oz Aerosol LCW Post Treatment Solution. Parkerizing solution should be mixed with four parts water. Black Dip should be used without diluting. Heated stainless steel tank required for parkerizing, Black Dip can be used with any container other than stainless steel.

- 1 Kit, Manganese or Zinc.....#BDK \$125.95

Protective Equipment

LCW Shop Apron

Heavy duty, provides protection from parkerizing solution and general gun smithing operations.

- 1 Apron.....#SAHDR \$19.50

LCW Parkerizing Gloves

Durable high-quality gloves, ideal for parkerizing.

- 1 Pair.....#PGCLL \$32.30

Cleaners and Pre-Treatments

NoSand™ Prep Solution

The easiest to use firearm finishes on the planet just got easier! No more sanding! No more blasting! Just degrease with TruStrip™ then apply NoSand™ with a scrubbing pad for improved adhesion without the extra work. Works on all types of metal and plastic. Apply with your own spray equipment or use our convenient spray pump.

4 oz, with pump #NS4P \$10.95
8 oz, with pump #NS8P \$16.45

4 oz, without pump #NS4 \$8.75
8 oz, without pump #NS8 \$14.25
16 oz, without pump #NS16 \$21.95
32 oz, without pump #NS32 \$32.95
128 oz, without pump #NS128 \$87.95

1st. Degrease with TruStrip™

2nd. Apply NoSand™ Prep Solution

3rd. Use included scrubbing pad to work NoSand™ Prep Solution into all areas

Cleaners and Pre-Treatments

DuraPhos™ Kit

Do you have a bare steel action that you want to DuraCoat®? Use the DuraPhos™ Kit for the best possible results. Apply with an airbrush or spray gun. The kit includes 4 oz DuraCoat® with Hardener, 2 oz Reducer, 4 oz DuraPhos™

Pre-Treatment Solution, 4 oz DuraPhos™ Cleaner, and 6 oz Aerosol TruStrip™ Cleaner/Degreaser.

DuraPhos™ Kit #DPK \$59.95

DuraFil™ Kit

Need to fix up that old, pitted barreled action? This kit is for you. The DuraFil™ Kit includes 4 oz DuraCoat® with Hardener, 2 oz DuraFil™ with Hardener, 2 oz Reducer, and 6 oz Aerosol TruStrip™ Cleaner/Degreaser.

All you do is degrease, apply DuraFil™ using an airbrush or spray gun, let dry and sand smooth. Top coat with DuraCoat® and you have a beautifully restored piece.

DuraFil™ Kit #DFK \$47.95

DuraPhos™ Pre-Treatment Solution

SIMPLY SPRAY APPLY AT ROOM TEMPERATURE, NO HEATED SOLUTION TANKS OR BLASTING! Now with a detergent to help clean the surface prior to DuraCoating! DuraPhos™ provides all the pre-treatment benefits of a standard phosphate without the mess or equipment or fuel cost. DuraPhos™ is a liquid phosphate solution that is corrosion resistant and designed to provide superior adhesion for coatings applied to steel in as little as five to seven minutes. To avoid corrosion of application equipment, clean-up with DuraPhos™ Cleaner. DuraPhos™ is to be used only as a DuraCoat® pre-treatment and not as a final finish.

8 oz Container #DPHOS8 \$20.35
1 Gallon..... #DPHOSG \$150.00

DuraPhos™ Cleaner

To avoid corrosion of application equipment after using DuraPhos™ Pre-Treatment Solution, clean-up with DuraPhos™ Cleaner.

Pattern Packages and Templates

CamoPak™

Each of our 70 patterns are available in a CamoPak™, which includes:

- ▶ Between 8 and 14 ounces of DuraCoat® Original or DuraCoat® SL and 1 ounce of Hardener, enough to create the camouflage pattern on 1 - 2 firearms

CamoPak™ Plus

Each of our 70 patterns are available in a CamoPak™ Plus, which includes:

- ▶ Between 8 and 14 ounces of DuraCoat® Original or DuraCoat® SL and 1 ounce of Hardener, enough to create the camouflage pattern on 1 - 2 firearms
- ▶ Appropriate Peel 'N Spray™ Template or Fabric Template

EZ Camo Kit

Each of our 70 patterns are available in an EZ Camo Kit, which includes:

- ▶ CamoPak™ with between 8 and 14 ounces of DuraCoat® Original or DuraCoat® SL, enough for 1 - 2 firearms
- ▶ 1 ounce of Hardener
- ▶ 4 ounce DuraCoat® Reducer
- ▶ 16 ounce Aerosol TruStrip
- ▶ Peel 'N Spray™ Template or Fabric Template
- ▶ Paasche Airbrush with air hose and couplings
- ▶ Two 12 ounce Paasche airbrush propellants with valve
- ▶ Color bottle with cap

Peel 'N Spray™ Templates

Each of our easy-to-use adhesive backed Peel 'N Spray™ Templates is pre-cut to produce the CamoPak™ camouflage pattern of your choice. Create a professional camouflage finish with DuraCoat® Peel 'N Spray™ Templates by following these eight simple steps! Peel 'N Spray™ Templates are available as part of a CamoPak™ Plus or EZ Camo Kit, but may also be purchased individually in full rifle length or the smaller handgun size.

Step 1
Randomly select one or more Peel 'N Spray™ templates and place on the base coated item.

Step 2
Spray second color. Completely coat the item and templates. Do not remove templates.

Step 3
Randomly apply more templates.

Step 4
Spray third color, completely coat the item and template.

Step 5
Remove all templates.

Step 6
Apply female templates for accent color.

Step 7
Apply accent color to female templates.

Step 8
Remove female templates and apply DuraCoat® Clear.

Additional Products

Template Adhesive Remover Want to remove that annoying template adhesive residue? It's as easy as using the new Template Adhesive Remover. Just put it on a rag and wipe it down.

Prym1 Camo Patterns

Prym1
Shore Line

When hunting, we do not always stay stationary in front of a tree. More often than not, we are stalking. This presents a problem if your camouflage is designed to only blend into a wooded terrain. Prym1 Camo has been professionally designed with the idea of using organic shapes rather than trees and leaves. Now you can recreate the Prym1 patterns using Officially Licensed DuraCoat® CamoPaks™ and Peel 'N Spray™ Templates.

Be the Predator.
